Menu	Brennan's maintains the integrity and history of Brennan's by boasting a selection of traditional New Orleans favorites as well as distinct seasonal daily offerings. Hacker's high regard for freshness comes in all varieties, which are transformed into dishes with a strong vision for what is local.
Venue	Brennan's cheerfully embraces the unabashed opulence of the French Quarter. Designer Richard Keith Langham honors the history and the richness, the drama and the <i>sassiness</i> of New Orleans. Brennan's decor is vibrant and fresh, as if you've stepped back in time a century or two, into elegant rooms recently created for a fashion-forward inhabitant. Each room

Brennan's[®]

unfolds dramatically, engaging you in its own distinctive and colorful personality.

Brennan's pink stucco façade remains unchanged, an iconic landmark on Royal Street welcoming new generations of patrons. Its particular pink has an Old World, old-fashioned glamour, and it pops up as a light-hearted accent in a number of the re-designed rooms. Langham created a fantasy of

'New Orleans French' style, but also pays homage to the history of Brennan's, itself, a place that has meant so much to so many southerners.
